Mail: admin@transformercoilwindingmachine.com

Web:www.transformercoilwindingmachine.com

SPECIFICATION:

1.Compatible wire diameter ： Small machine 0-12 square/Large machine10-50 square.
2. The whole set of control system is Open CNC System.
3. The replacement jig can be compatible with multiple models.
4. Pneumatic components use AirTAC or the same level;
5. The overall equipment meets the safety production requirements.
6.The length of the equipment host is 1000, the width is 700, the height is 1600, and the space occupied by the discharge rack is 1500, and the width is 700. The whole machine occupies a space of 2500*700 units MM. The overall weight of the equipment is 300KG.

Equipment Module - Equipment Description:
Description of main accessories:

Power supply	Taiwan or domestic first-line	Pneumatic components	Air TAC or equivalent
Module	Baichuan Precision	Control system	Open CNC System
Working voltage	220V/50HZ	Power	1300W

ADVANTAGES:

Complete range of articles, large range of wire diameter, Multipurpose.
Good compatibility, parts are interchangeable.
High stability, part quality guarantee.
High production efficiency, no wire breaking at high speed winding.
Easy to operate, High learnability.
Enquiries can be quoted one day service.
Automatic Winding Machine has Complete specifications and data.

PRACTICAL APPLICATION :

Training for Customers on KXPLC-880A Automatic Winding Machine Operation

1.All service engineers with 10 years of experience have received special technical training, including specialized expertise in the KXPLC-880A Automatic Winding Machine, enabling them to effectively handle various breakdown issues specific to this automated winding equipment.

2.We guide users to accurately operate and maintain the KXPLC-880A Automatic Winding Machine—with focused attention to its PLC-controlled systems, automated winding mechanisms, and precision adjustment features—while providing free consultation about the production process technology of electronic products, particularly those involving automated coil winding applications.

3.To ensure the KXPLC-880A Automatic Winding Machine operates normally, we conduct dedicated training on its programmable functions, operation procedures, usage, and maintenance through English manuals, model-specific instructional videos, and online guidance, tailored to the unique requirements of this PLC-driven automatic winding equipment.

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

1.General package(Paper carton or plastic bag): For small euipped parts for Toroidal Transformer Winding Machine , Package it with form and pack paper to guarantee unbroken during the transport.

2.Wooden case package: For larger scale Toroidal Winding machine ,we have special skilled carpenter, who would make the proper wooden case with exact thickness,density,length. The up arr ow ↑marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.

FACTORY:

We, KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD., have been experts in winding machine lines for 28 years, with our advanced product portfolio featuring intelligent automation solutions like the KXPLC-880A Automatic Winding Machine — a high-performance PLC-controlled system engineered for precise, automated winding operations, embodying our technical excellence in programmable winding technology.

Our KIOXIA LIGHT RING brand holds authoritative certifications and recognitions, including ISO9001:2015, CE approvals, multiple machine patents (encompassing key innovations in models like the KXPLC-880A Automatic Winding Machine), and the official designation of "high-tech enterprise" by the government. These credentials fully validate the reliability, efficiency, and technical superiority of our entire product range, reinforcing our commitment to delivering professional winding solutions for diverse automated coil manufacturing needs.
